THE RADIO OCCULTATION PROCESSING PACKAGE (ROPP)

D. Offiler*(1), H. Lewis (1)

(1) Met Office, Exeter, UK

The objectives of ROPP are: to provide users with a comprehensive software package containing all the necessary functionality to pre-processes RO data from Level 1a, Level 2b or Level 2 and components to assist with the assimilation of these data in NWP systems. This poster gives a brief overview of the package and its performance.
